

Application

- It can be used to transfer clean or slightly dirty water or other liquids similar to water in physical and chemical properties. It is suitable to be immersed in water for lifting water from the well or the pool, and draining water from the basement.

Pump

- Plastic pump body
- Extensive use with two outlets
- Float switch ensures automatic cut-in and cut-out
- Max. liquid temperature: +35°C
- Max. immersion depth: 7 m
- Max. diameter of particle: 5 mm

Motor

- Motor with aluminum winding
- Built-in thermal protector
- Insulation class: F
- Protection class: IPX8

Identification Codes

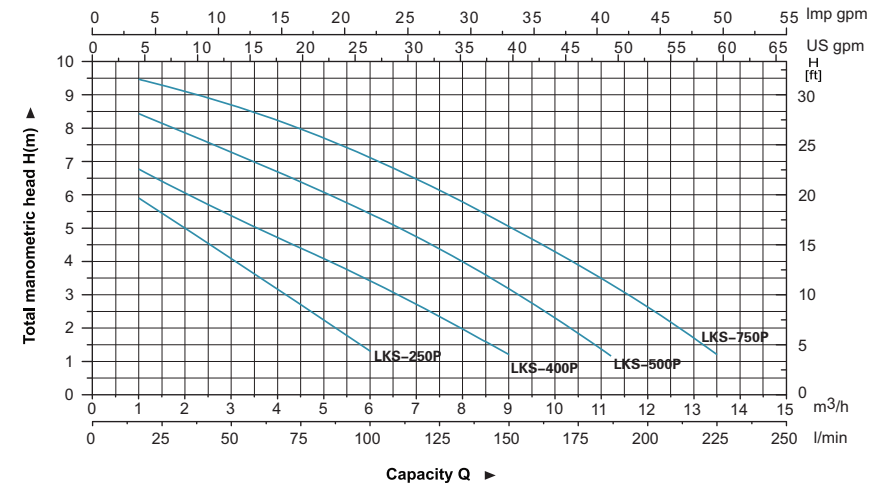

LKS - 250 P
