Smooth Pot Plant Baskets

Introduction

Made by hand in Malawi using palm leaves, these decorative baskets can hold potted plants or serve as household storage. Their protective finish helps resist accidental moisture and UV exposure.

Available sizes

Base diameter (mm)	Height (mm)	Handle included
100	100	No
150	150	No
200	200	Yes
250	250	Yes
300	300	Yes
350	350	Yes
400	400	Yes
450	450	Yes

Set-up and use

1. Choose a basket that comfortably accommodates your plant pot.

2. Position the basket on a stable surface indoors or in a sheltered outdoor area.

3. Keep the plant in its own pot with drainage holes. Use a drip tray to protect the basket and the surface underneath.

4. Remove the pot for watering where practical. Let excess water drain before returning it to the basket.

Care and storage

• Remove dust with a soft cloth or brush. Wipe up spills promptly and allow to air-dry.

• Avoid soaking, standing water, prolonged rain and extended exposure to harsh sunlight.

• Support the base when moving a loaded basket. Avoid overloading the handles and store in a dry, ventilated area.

IMPORTANT – WATER EXPOSURE
The protective finish is intended for incidental exposure. Do not use the basket as a watertight container.
