MODERN BOWL WATER FEATURE

SQUAREBASE | ASSEMBLYGUIDE

YOUR WATER FEATURE

ASSEMBLY DIAGRAMS

ASSEMBLY INSTRUCTIONS

01 Thread the light cable and hose through the pre-drilled hole at the top.

02 Place the water pump into the water basin.

03 Connect the light cable to the pump's light cable, then attach the hose to the pump.

04 Fill the basin with an appropriate amount of water, then connect the power source.

CARE & CAUTION

Disconnect the power before cleaning or inspecting. Wipe with a soft cloth; avoid acidic or alkaline cleaners. Change the water regularly and remove debris. If water stops flowing, switch off the pump and check the hose and pump for blockages.
